Give your child the opportunity for success
with early language learning!

The elementary years are the best time for children to learn another language. Research shows that learning a language enhances cognitive development and basic skills performance. Because a new language is not familiar children must acquire new learning strategies. This program offers your child the opportunity to improve their academic skills including understanding of their own language. Language classes also introduce them to different cultures which helps them broaden their outlook and develop an understanding of others.

Classes are held from January 25 - May 3, 2012 • Follows school calendar.
